EIS000343

Dec. 3, 1999

RECEIVED
DEC 06 1999

Dear Wendy Dixon,

1 I agree with the participants at the public hearing at the Lawler Events Center that the DOE's draft environmental impact statement for the waste dump is a sham and the dump will not be safe. I think the U.S. Department of Energy should dump its plan to build a nuclear waste repository at Yucca Mountain.
