Dear Sir;

1 please don't ship any "high level" Nuclear Waste through Utah. Haven't we had enough in and through Utah? We have had a lot of Cancer from the Nuclear bomb before. Some people got some money - Some did not. Lets not go that route again, please. $50,000. did not pay Medical & death bills - If you were over 50 yrs. you couldn't collect at all, but you still died. Why is it every Nuclear Waste has to be shipped to Utah or through Utah? Every State should take care of their own Nuclear Waste. They made it, We don't want it.

"Not in Utah"

Sincerely

Barbara Anderson
