Wendy Dixon, EIS Project Manager
Yucca Mountain Site - DOE
Box 30307, MS 010
North Las Vegas, NV 89036

EIS001497

Dear Ms. Dixon,

1 Please do not allow the transportation of radioactive wastes — not through Missouri or anyplace else. Those of us who were opposed to nuclear power years ago were opposed for this very reason — there is no safe
2 disposal for the waste. We need to stop producing it until safe storage is designed or discovered. In the meantime, the current sites are already contaminated for thousands of years. Leave it where it is, and figure out a way to decontaminate!

Sincerely,
Catherine Vatterott
