RECEIVED
FEB 28 2000

Ms. Dixon:

I am writing to you in regard to allowing radioactive waste to be shipped across the country. Despite the fact that our neighbors here in Westa Grove, Mo. have handed out flyers urging us to oppose this, I cannot see how else we will dispose of the waste. We are right by a railroad, but I'm sure many hazardous materials already pass through on a daily basis.

See attached copy of the letter circulated in our neighborhood.
