Dear Ms. Dixon, EIS Manger:

I'm worried about the transportation of nuclear waste. My name is Kristal Campbell and we've been learning about nuclear energy in my Science Class. I'm worried about what might happen when I'm 25 and nuclear waste begins to be transported in to Nevada.

1

I don't want to be exposed to a nuclear spill and it's side effects. I don't think we should have to store other State's nuclear waste when the State of Nevada doesn't even have one nuclear power plant.

2

Sincerely
Kristal Campbell
