Dear MS. Dixon, EIS manager:

I am an 8th grader at Rosemary clarche middle school. I have been studying the transportation of nuclear waste. I am writing to you about my ideas on nuclear waste transportation.

I think that nuclear waste shouldn't be transported through Nevada. The risks of doing this are numerous. What if a driver is too sleepy to drive and crashes? A spill will happen! A spill will cause plants, wildlife, and human! If humans are exposed they have a higher risk of cancer, too!
