4 MR. SZYMANSKI: Well, I have prepared written
5 SEP 27 1999 comments. Essentially they pertain to one issue, which I was
6 interested for the last twenty years. It pertains to basically
7 catastrophic releases for Yucca Mountain, and I have concluded
8 a number of suggestions for the Final EIS to be corrected, and
9 somehow truthfully eliminate this matter to the public and the
10 decision makers.

11 I will not read this. They are too long.

12 However, I will submit them to you.

13 Thank you.

14 MR. BROWN: Thank you.

15 The next speaker -- I'm sorry, but the last name
16 was written. I can't read it. Is it Polski?

17 MR. POLESKI: It's Andrew Poleski, and I'll
18 pass.

19 MR. BROWN: Next speaker then is Judy Treichel.
