Dear Dr. Summerson -

RECEIVED
JUL 12 2001

1 Please use your best ideas to figure out a better way to get rid of spent nuclear fuel than by an aged rail system that puts maybe 20% of the population at risk or the highways which are no

2 better. (And who's idiot idea was it to import other countries waste?) The Germans lost WWII but they will have a deferred win if we have the almost certain accident? NO MORE!

Sincerely.
