Dear Sir or Madam,

I am opposed to the use of Yucca mountain for radioactive waste for several reasons:

1) The area is earthquake prone
2) Waste can leak into ground water
3) I don't want waste transported across the U. S. and through major cities
4) I want nuclear energy to be closed down, an end to nuclear power plants, and the use of renewable, safe energies

My solution for the present would be to leave the nuclear waste where it is at the present time.

Sincerely,
Mrs. Joan Botwinick
