September 12, 200

Attention: Carol Hanlon
U.S. Dept. of Energy

RECEIVED
SEP 19 2001

I am a mature Woman that has 3 grown children + 6 grandchildren. I work in a large health store + have been in this store for 2 years - I am a semi-Vegie + have been a lover of the outdoors, all my life.... including hiking up to the top of ridges + overlook for 24 years.

The thought of Nuclear Waste being buried near here, Las Vegas, + traveling across so many states to get here, is one of the scariest + most frightening thing I can think of.

Please, if all the waste is sitting in N.J. let it stay there.

Thank you,
Sincerely,
Annette Leff
