To Whom It May CONCERN:

We need an extended time period for public response as requested by Senator Harry Reid - DEM./NEVADA, et.al.

I am against the Yucca mountain site as I know geologically the area is rated high on earthquake and venting by my own college studies & current "science".

The newspaper ad for writing to you wasn't obvious. It was on pg 7-B. I am also requesting the Two documents in the ad (which is my first knowledge of such).

⊕ I recommend additional time as stated above

⊕ Denial of Approval of the YUCCA MTN. site - In light of 09-11-01 CRISIS AND Government lack of security (ie: FAA) the transfer of material to a central site from the temporary sites would be ADDED SECURITY RISK OF THE NATION and the PUBLIC.
