RECEIVED SEP 24 2001

9/18/01

To Carol Hanlon, US Dept of Energy,

I am writing to express my deep opposition to shipping nuclear waste through St. Louis en route to Yucca Mountain. By doing so you would be placing my life at risk in order to bail out a corrupt, economically non-viable industry. Please cancel the Yucca Mountain boondoggle and allow us to feel safe in our city.

Thank you,

Daniel Berg, MD
