Comments: (If possible, please reference section and/or page number in document if applicable.)

I feel very uncomfortable about having neuclear waste so close to my home. I am even more worried about what could happen during the time that it's being transported. Nevada does not need raidio active waste burried beneath it's soil. I will never be able to feel comfortable with this ided. neuclear waste is not healthy and I don't believe in it. I speak for alot of people and myself when I say; we don't want it here! No matter how safe scientists claim the storing of this waste is, it still is there and it's unsettling to have thoughts about what could happen. I live right by the freeway and it scares me to think about neuclear waste driving by my house. I refuse to accept this and pray my voice will be heard.
