NEVADA IS NOT A WASTELAND

Like the title says, we ar not a wasteland. If we ~~were~~ decided to go and Dump some nuclear waste around you guys you would be writing this exact letter to us! Down a little bit further, you see a blob of stuff well before I put that there it was a perfectly white piece of paper. Now it's just really ugly! well thats how we will be if you do that to us! Not only will it be ugly people will die! PLEASE don't dump nuclear waste at Yucca mountain.

Thank you,

Josh Page
