[My concern, one of my concerns is the travel of the nuclear waste in the casks.] My husband was born and raised in Austin, Nevada, and during the 50's when they were doing the testing of the bomb north of Las Vegas, they assured them that there was no danger.

Well, my husband's entire family have died of cancer. My husband, I lost him four years ago from cancer. The government denied it for years. But they compensated me. They consider it compensation. I don't.

But anyway, my concern is the radiation. It really scares me. I don't want my grandchildren to die the way their grandfather did.] Thank you.
