

3 NOV 09 1999 I'm Victoria Gilpatrick with the Lincoln County  
4 Regional Development Authority.

5 Your Draft EIS -- your -- that will make me  
6 really nervous.

7 [Your draft on your EIS does not address what the  
8 impact will be on our community in Lincoln County as far as you  
9 said that there will be a lot more jobs here.

10 It does not address what the impact will be for  
11 our schools, for our hospitals -- for our hospital, for our  
12 infrastructure, and I think it's very important that the EIS  
13 addresses this, the final draft, and also you stated that our  
14 population increased ten percent between 1990 and 1997.

15 I could not believe this is correct. I feel that  
16 our population probably has decreased more than it has  
17 increased, and it definitely has decreased ten percent, and I  
18 think this needs to be addressed, also.

19 Thank you.
