Subject: Yucca Mountain

- 1 My wife and I did not move and retire to Las Vegas three years ago to live near a Nuclear Waste Dump. Instead of spending wasteful billions on government projects just to please the politicians why doesn't our government spend these on finding better ways to neutralize the waste instead of dumping the waste on the public. There are enough concerns and stress in this world without adding a Nuclear dump in our backyards. It's about time our government starting using common sense and the taxpayers money to better our environment instead of polluting it. I dread to think what will effect my grandchildren and their children in the future. The United States is the greatest country in the world. We have the best scientists and resources. Lets get up off our hands and put our money where our mouth is. Ask the politicians to stop wasting the money on foolishness and dumb programs instead, save our planet before it's to late.
- 2 WE DO NOT WANT YUCCA MOUNTAIN FULL OF NUCLEAR WASTE.  
WHY NOT PUT IT YOUR BACKYARD INSTEAD OF MINE.

Sincerely yours,  
A concerned Citizen
