RECEIVED

JAN 18 2000

Dear Wendy R. Dixon:

The following is a list of concerns that my wife and I have about a repository being placed at Yucca Mountain.

- Studies have shown that the Yucca Mountain Nuclear Waste Repository is being built on a known fault
- No absolute guarantee's of safety in the transportation of nuclear waste through the Las Vegas valley
- The water table at Yucca Mountain has risen in the past and most likely will again in the future
- Our family, friends and community should not be endangered by a project funded by our own government
- With all the technological powers we possess, we must push for a safer solution to eradicate nuclear waste

So, for our children and the many new generations to come. Please oppose the construction and utilization of The Yucca Mountain Repository.

Thank you,

MR. & MRS. OTTO MORRISON
