Comment Text :
-->To Ms. Wendy Dixon, EIS Program Manager
Dear Ms. Dixon

1 I am opposed proceeding with the Yucca Mountain Nuclear Waste Facility as proposed in the EIS Draft for a waste Respository. I reference my objections to the Statement Of Robert R. Loux, Executive Director, Nevada Agency For Nuclear Projects Office Of the Governor
To the U.S. Department Of Energy Office Of civilian Radioactive waste Managment Presented at the public hearing in Reno, Nevada December 2. 1999. Furthermore I am opposed to any consideration of a permanent storage of nuclear waste with its 10,000 year half life, until all nuclaer waste production ceases to exist. Until all Nuclear Generating plants in this country are shut down, and dismanteled, I believe that it is futile to consider any permanent solution to nuclear waste product while we are still producing it. Other Countries in the Industialized world are taking steps to curtailing nuclear generating plants, and we should be to
John H Gates
