Comments: (If possible, please reference section number and/or page number in document if applicable.)

1 [If the spent nuclear fuels and high level radioactive waste is safe to move - Then why Move It. We do not need other people's waste put in our state.]

2 [Also we do not need a railroad put thru our valley to transport this nuclear junk.]

3 The proposed route would destroy our road to where we cut firewood, commercially. Firewood sales are our supplemental income, plus our way of showing that this land can be used, but not Abused. We do not need more of our land taken out of production, by building new railroads.]

[We need more money spent on research to make use of the high level radioactive waste and obtain plutonium that is in the waters in Southern Nevada.]

1 [I say No to Yucca Mountain.]

continued

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
