I request that these comments be made a part of the official record.

1

What scenarios will be used for future groundwater use in the area, and why were they selected?

2

Will radiation sources in the area, other than the repository, will be considered in a total dose calculation? Will the recently reported spent fuel buried somewhere in Area 25 of the Nevada Test Site be included? What about the cumulative impacts to groundwater from nuclear testing?

HUMANITY HAS ALREADY ACHIEVED SUICIDE.

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.
