

PUBLIC STATEMENTS OF DANIEL KINDER AND OSCAR GUYAGOS

MR. KINDER: I'm Daniel Kinder.

MR. GUYAGOS: I'm Oscar Guyagos.

1 MR. KINDER: I just want to say that I don't appreciate your generation taking the waste and your mistakes and putting it in my generation and future generations' laps to fix. I don't think it's very fair that your mistakes have to become one of our undoers to have to try and fix.

And the animals and plants have nothing to do with this, but they still live, and they still have a lot of life left in them. And like on the Simpson's three-eyed fish, it's not quite appealing.

Nevada is such a beautiful place. You should open your eyes and discover that. Thank you.

MR. SKIPPER: Thank you.
