

Draft Environmental Impact Statement for a Geologic Repository for the Disposal of Spent Nuclear Fuel and High-Level Radioactive Waste

Comment Sheet

RECEIVED

FEB 07 2000

EIS001205

Name: Jeffrey Swart

Organization: N/A

Mailing Address: 1645 Commonwealth Ave #7
Brighton, MA Zip: 02135

Telephone number (optional): ()

I request that these comments be made a part of the official record.

- 1 What scenarios will be used for future groundwater use in the area, and why were they selected?
- 2 Will radiation sources in the area, other than the repository, will be considered in a total dose calculation? Will the recently reported spent fuel buried somewhere in Area 25 of the Nevada Test Site be included? What about the cumulative impacts to groundwater from nuclear testing?

3

The earth is our greatest gift, we belong to the earth, it does not belong to us. If you love your children and your fellow man, money and capitalist goals growl towards selfish and destructive nature as something your children will have to live with... please show and return the same loving grace the earth has shown you.

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.
