RECEIVED

FEB 11 2000

Dear Ms Dixon,

- 1... I hope mine is one of thousands of letters you receive protesting the transport of nuclear materials through populated areas.
- 2 We had no say in the development and implementation of nuclear plants – why should we pay (perhaps with our lives or the lives of our children) for this industry to endanger us, and then be forced to clean up their mess? I teach my children to clean up after themselves. Why can't the nuclear industry accomplish this? Any argument you give does not diffuse the anger and dread I feel about these shipments.
- 1 cont.

I will encourage anyone I can to write to you with their own letters of protest. I don't know you and will not attack you personally. But I urge you to do whatever you can to prevent routing these shipments through my, and other, communities.

1 cont.

Sincerely,

Linda Chicoineau
