To Whom It May Concern

FEB 14 2000

FEB. 3, 2000

1 I am concerned about the nuclear Waste plans being considered for the Yucca Mountain site in Nevada. In addition to the members of 43 states which such a route would enfaner,th ere are technical problems at the Yucca Mt. which make the area unsuitable. Several branches of the Paiute Indian tribes will also be affected .People of color and disadvanteged communities will be adversely affected by such a route.

I beg that those who have power in this matter will consider all the issues.

Sincerely,

*Frances Dwight*
