Comments: (If possible, please reference section number and/or page number in document if applicable.)

1 So To whom It may concern you  
Should understand one thing. In the exes  
of the universe we are all one big  
self contained unit. By trying to ~~to~~ to  
kill or make energy with nuclear energy  
you are putting out work in jeopardy including  
yourself and your families, their children every  
body. Hiding behind closed doors & creating this  
kind of waste doesn't mean you're not polluting  
2 this giant fishbowl. Since you've already created  
this mess keep it where it is. Its already a huge  
danger let alone traveling across the country with it. The  
shashone people do not deserve this as does none of  
us. We are all one, if you pollute us or them its  
the same thing as you & your families. Its time  
for all of us to become aware ~~to~~ if you want any life  
to continue, we all need love including you & respect

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
