- 1 MS. SCHIRN: I would just like to add my voice to those of others in opposition to the transportation of the nuclear waste. I don't have anything more to say than the eloquent people that come before me. I just want to say I am one of many, many, many people who did not have time to come here tonight who do not want this stuff shipped in here, we do not want it placed all together in Nevada. I think that we need
- 2 to keep it where it is now and store it safely there indefinitely. Stop making more of it, stop nuclear power plants and the other waste that the nuclear waste is being generated. That's all I have to say. Thank you very much.
