Comments: (If possible, please reference section number and/or page number in document if applicable.)

- 1 I live in North Fontana, CA, near the I-15 freeway. I am very concerned and worried about San Bernardino County's safety. You can't imagine how many accidents happen on that freeway. 2.5 loads a day of nuclear waste transportation for 30 years. Somethings going to happen. You say it's safe because of the container. We don't believe you. I attended the meeting Feb. 22, 2000 - Radison - San Bernardino CA. All I got out of this meeting was that we don't want it. Go else where.
- 2 When asked if you were the responsible group in charge of this issue, you answered no. I would like to know who is going to be the responsible one
- 3 when an accident occurs? Who has the liability and who's going to pay? I would like this in writing and written to where one can understand as soon as possible. Someone has to be held accountable. Thank You.

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9. 28

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
