Dear Ms Dixon/EIS Manager:

1 I am a student at Rose Mary Clerk Middle School. I am curious as to why Nevada was chosen to ~~store~~ store other States nuclear waste.

The travel rout for transportings runs basically right through Las Vegas a city of more than 1,000,000 people!

2 Why don't that states that produce nuclear waste keep it themselves. If nuclear waste doesn't need to be transported there willbe fewer accidents.

Sincerely, *Araceli Lara*

Araceli Lara
