Dear Ms. Dixon EIS Manager

1 | I am concerned about storing waste in Yucca Mountain.
Is anything going to happen if the waste gets into our water?
Can it affect the earth of the people and if it does how can it
2 hurt us? How long will it last? | Can you hold the waste until
you find something to do with it? Maybe you can send it to
3 the moon or the sun. | How safe is it to transfer it to Yucca
Mountain and if it does leak on the way what can happen. |

Sincerely,

Doug Gilson

Doug Gilson
