---> Comment Text :

1 Based upon government and anthropological literature, I strongly support abandonment of the nuclear dump Yucca Mountain project. I also support abandonment of all nuclear testing, nuclear energy and the abandonment of creation of nuclear weapons. I support reallocation of funds that are now used for nuclear scientific endeavors to scientific efforts toward implementation and improvement of safe and nondestructive energy sources.

I support the recognition of Yucca Mountain and surrounding lands as belonging to the several Native American groups who were moved off of them. I support military and scientific community withdrawal from the area.

Kathryn Fulton
