1 I don't think that anywhere in the U.S., especially Yucca Mountain, has a spot for Nuclear waste. We already have an enemies mark here in Nevada...Nellis Air force base and we certainly don't need another one!

This matter really needs to be reconsidered and there should be other alternatives looked at for disposing of Nuclear waste...ie. the ocean, or outer space. I don't think there is any city in our beautiful country that would agree with storing nuclear anything!

Thank you
