The Honorable Spencer Abraham  
Secretary of Energy  
U.S. Department of Energy  
1000 Independence Ave. SW  
Washington, D.C. 20585

RECEIVED

SEP 03 2001

Dear Secretary Abraham:

I object to the lack of reasonable notice, and opportunity for hearing on the DOE's site recommendation of Yucca Mountain for a national high-level nuclear waste repository.

On August 21, 2001, with less than 30 days for any interested person to read the DOE's more than 370 page long technical report, "Yucca Mountain Preliminary Site Suitability Evaluation," your agency announced it was holding public hearings on the site recommendation of Yucca Mountain in Nevada between September 5th and 13th. Not only are these hearings provided with totally inadequate notice, but, for persons, such as myself, who may be affected by the requisite transportation of high-level nuclear waste through my hometown via road, your agency has provided no opportunity to comment on the suitability of the recommendation. A few meetings in Nevada does not come close to providing an opportunity for public hearing on a project of this magnitude and immense potential danger to those on transportation routes throughout the county.

There is no doubt that, no matter what provisions may be in the Nuclear Waste Policy Act, the United States Constitution's Fifth Amendment protections require that persons such as ourselves--and affected Nevadans--must have at least reasonable notice and an opportunity to be heard on a decision such as this one, a decision with vast repercussions and grave potential dangers. Your agency's actions in this regard have not come even close to meeting the most minimal constitutional protections of citizens' rights to due process in this instance.

I call on you to reschedule these hearings with adequate notice and a meaningful opportunity to be heard by all persons who will be affected by your agency's recommendation of Yucca Mountain as the national high-level waste repository.

Sincerely,

Kalen Jones
