Part of Records Package / Supplement / Correction

Dear Sir,

I oppose the use of Yucca Mt. for a nuclear waste dump site. Nevada is not a dumping ground.

Please cut your losses, meaning quit spending my taxes at Yucca Mountain, and come up with some other place. Why haven't you looked for other places who might want the dump?

Please explain why all nuke waste is not re-processed. If they can do this in Europe, why can't it happen in the USA?

It makes no sense to transport waste from all over the country to Nevada. We believe the waste should be re-processed right where it was generated.

The lack of advanced notice concerning the only public hearing to be held in the capitol of Nevada is discouraging. Even if we wanted to attend, it's only a teleconference to your Las Vegas location.

Everything about the choice of Yucca Mountain as a nuclear waste dump smells of arrogance and deception. Please remember the DOE works for the taxpayers, not the nuclear industry.

I do NOT support of the use of Yucca Mountain as a nuclear waste dump.

Ed Horton
