MS. CLARK: Juanita Clark. J-U-A-N-I-T-A,

10 C-L-A-R-K.

11 I'm here on behalf of 13,800 residents in
12 Charleston Neighborhood Preservation Corporation, which
13 is a city of Las Vegas neighborhood group. We do not
14 want nuclear waste from other states. We feel that it
15 needs to be stored where it's developed and that monies
16 rather than studying someplace else to store it, the
17 moon, the ocean, space, Nevada, be used on recycling or
18 whatever term the Federal Government deems they would
19 like to call it, or the high scientists would deem they
20 would like to call it. That's all.
