3 MR. KING: My name is Wayne King.

4 I am a Nevadan. I've lived here for over 40  
5 years. Like the gentleman said earlier, I came here  
6 because my father was looking for the money. He needed  
7 a job. He needed to make a living for six kids. He  
8 brought them to Las Vegas. I was 12 years old. My  
9 father worked the test site until he retired. He's  
10 still alive today. It didn't kill him. He's 78 years  
11 old. He was hit with radiation twice. He doesn't have  
12 cancer.

13 I have six children. Most of them live in  
14 Las Vegas, all but one. I have 19 grandchildren that  
15 all live in Las Vegas. And I want to see Yucca  
16 Mountain come to Las Vegas, come to Nevada. Yucca  
17 Mountain is a project that will bring jobs. It's going  
18 to happen somewhere. This state deserves it. We've  
19 earned the right to have it. We've done the testing.  
20 We have the property that's already been ruined with  
21 the testing. It's not good for anything else.

22 It's good for Nevada and it can bring roads  
23 to Nevada, schools to Nevada, training. I'm a  
24 teamster. I've driven over a million and a half miles

25 accident-free. There is a lot of them just like me.

1 We know how to transport stuff safely. It can be  
2 transported safely. Chicken little is not falling on  
3 my head.

4 I still trust part of my government. I've  
5 worked the test site. I've worked for contractors who  
6 have been at the test site. I'm still alive. I don't  
7 have cancer. It's not all doom and gloom. We've made  
8 a lot of money off the test site, this valley has.

9 Harry Reid got up here, started bad-mouthing  
10 everything at the test site. I worked for his brother.  
11 I'm not going to stand up here and take up somebody  
12 else's time like other people have done, but I do  
13 support Yucca Mountain and I hope it gets done.
