I don't believe that Nevada to be made a waste dump, for the rest of the country. Let the state keep their own waste they created it.

If you vote to send the waste here, I think the movement should be started to succeed from the Union, rather than to accept this waste. I think the citizen of Nevada should start a petition for they secession of the state from the Union. And remember Alaska almost did it. And it was not that long ago. And for a lot list reason than Nevada has to do it.

Nevada has a lot better reason to do it, billions of dollars leave the state of Nevada every year in revenue. If that money was keep here on this state, it would run the state just find.

If the President of the United States does not veto this Bill. And if it passes the houses, the President of United States does not care about the people of Nevada.

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.
