 --> Comment Text :

As a Las Vegas resident of eight years, I would like to submit my disapproval for the proposed Yucca Mountain Nuclear Waste Dump Site. I am appalled that this location is being considered for such a hazardous site in the backyard of nearly two million Las Vegas residents. I believe the transportation, and underground dumping of nuclear waste is too risky for both the environment and Southern Nevada citizens. Perhaps another site may be considered in a less populated area. In conclusion, I vote "No nuclear dumping in my backyard!"
