Carol Hanlon, DOE  
Yucca Mountain Site  
Characterization Office  
(M/S #025)  
North Las Vegas, NV 800360307

Dear Ms. Hanlon:

I am appalled that the Secretary of Energy is preparing to recommend Yucca Mountain for a high-level nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement have not been addressed!

I cannot have confidence in any recommendation that comes from such a dramatically flawed process. I urge you to abandon the Yucca Mountain Project.

I think especially with the terrorists who threaten our country, the transfer of hazard waste products across all the United States is giving them a wonderful way to do much harm to us along the route to Nevada. I would hope that in the future, before building nuclear facilities, our government would have a safe disposal system in place.

Sincerely,

Joan K. Butler
